## EMAIL ALERT

### **CO Professional Review Act Scheduled to Sunset on July 1, 2012.**

The Colorado Professional Review Act (the “Act”) is scheduled to sunset on July 1, 2012. The Act, among other things, authorizes hospital- and ambulatory surgical center-based peer review of physicians in the state. If the General Assembly does not affirmatively reenact the Act prior to the sunset date, the Act will be discontinued. Prior to the sunset date, the Colorado Department of Regulatory Agencies (“DORA”) must conduct a sunset review of the Act to determine whether it best serves the public interest to continue or discontinue the Act, and if the Act should be continued, whether any changes should be made. During this process, DORA will solicit input from interested parties and stakeholders to determine the best course of action.

The statutory criteria used by DORA to assess statutes scheduled to sunset can be found at:

<http://www.dora.state.co.us/opr/sunsetcriteria.htm>
